## PROFESSIONAL SUMMARY

Accessibility and Quality Assurance professional with over 5 years of experience evaluating web and mobile applications for accessibility compliance and inclusive user experience. Experienced in supporting diverse clients across global and local markets. Combines a background in software development with deep knowledge of accessibility standards to provide implementation-aware testing and actionable remediation guidance. Certified accessibility tester with formal training in internationally recognized accessibility frameworks.

## CORE SKILLS

### Accessibility & QA

- WCAG 2.1 / 2.2 compliance testing (web and mobile)
- Manual accessibility audits and assistive technology testing
- Screen reader testing (NVDA, JAWS, VoiceOver, TalkBack)
- Keyboard, focus order, and interaction validation
- Accessibility defect reporting, severity assessment, and regression testing

### Software & Mobile Development

- Flutter & Dart (accessible mobile applications)
- JavaScript, React, Next.js
- HTML5, CSS3, semantic markup
- Accessibility-first UI implementation and code review

## PROFESSIONAL EXPERIENCE

### Accessibility Tester - Technoprise Global (2021– 2026)

- Provide manual accessibility testing services.
- Conduct WCAG-aligned audits and assistive technology testing across web and mobile platforms.
- Document accessibility defects with clear reproduction steps and real user impact.
- Collaborate with developers to validate fixes and ensure accessibility readiness before release.

### **ICT Officer - Kenya Dairy Board (2019–2020)**

- Designed and implemented a Document Management System supporting secure access and reporting.
- Worked closely with stakeholders to translate requirements into functional software solutions.
- Delivered system documentation and conducted staff training for adoption and maintenance.

### **Web Content Developer - Kenya Revenue Authority (2019)**

- Developed and improved internal web portals and automated workflows.
- Supported usability improvements and system onboarding for internal users.

### **ICT Officer (Website and Software Development) - TVETA (2019)**

- Built an ERP registration system to streamline data collection and administration.
- Improved website structure and usability for public-facing content.

## **EDUCATION & CERTIFICATIONS**

- BSc. Information Sciences (CIS) - Maasai Mara University
- Certificate in Accessibility Testing - DHS, Office of Accessible Systems and Technology
- Accessibility Training Program & practices - Deque University
- Certificate in Software Development (Mobile Development) - Power Learn Project
